## WIRELESS RF CONTROL

Use up to 20 Controls with one fan

Cool your home at a click of a button

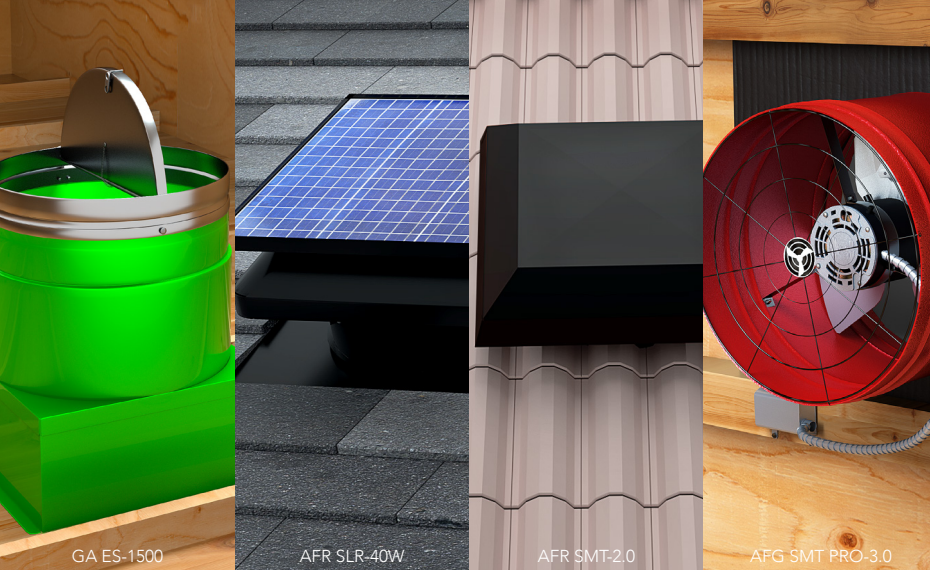

Control your fan from anywhere in your home

# KEEP YOUR ATTIC COOL AND YOUR HOME PROTECTED ALL YEAR LONG

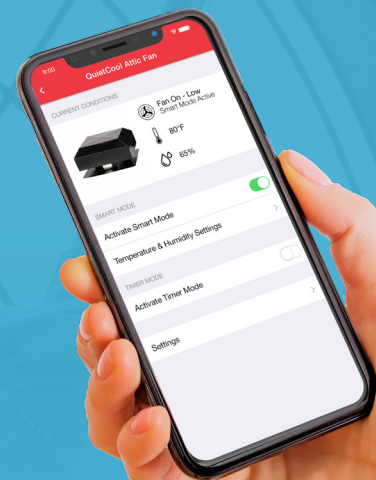

Roof and attic damage is endemic across the country. Don't wait around for it to happen to you, get a QuietCool Attic Fan and save yourself thousands of dollars in damages. QuietCool Attic Fans utilize just a fraction of energy compared to A/C units and keep the largest unregulated space in your home cool and free of water damage.

## INTRODUCING THE NEW SMART APP CONTROL

- ✓ CONTROL YOUR FAN FROM ANYWHERE IN YOUR HOME
- ✓ SET SPEED AND TIMER
- ✓ CREATE A CUSTOM PRESET FOR YOUR PERFECT COOLING NEEDS

## A FRACTION OF ENERGY FOR DOUBLE THE COOLING

## EVERY HOME SHOULD HAVE AN ATTIC FAN

When it's 95 °F outside, it's probably 150 °F in your attic. So, when your A/C turns on and cools off the living space, the attic heats it right back up again. The QuietCool Smart Attic Fan is the solution to this problem while also offering constant savings.

### GARAGE ATTIC FAN

The perfect system for any man cave, home gym, office, or workshop. This energy-efficient fan keeps the garage cool and free of dangerous VOC gases.

### SMART ROOF MOUNT ATTIC FANS

Attic Fans with Powder-Coated Steel, these durable cooling machines are perfect for every home without a gable vent in need of attic and home protection.

### SMART GABLE ATTIC FANS

An efficient Attic Fan that fits perfectly on any gable vent thanks to our easy to install mounting brackets.

### SOLAR ATTIC FANS

Our Solar Attic Fans use a large 30-40 Watt solar panel that is up to 2-3x as large as our competitors. Giving you the most powerful and eco-friendly product possible.
